# X-COM

## REMOTE ACOUSTIC HAILING DEVICE

X-COM is a state-of-the-art **remote acoustic hailing device** designed for perimeter security and sound reinforcement. Equipped with **high-powered acoustic technology** and a **remote pan-tilt control system**, it delivers clear and intelligible voice commands to **targets up to 3000 meters** away. Its intuitive **Control software**, ensures user-friendly operation and seamless integration into security setups. X-COM supports **HD/IR cameras, high-powered searchlights, thermal imagers, and laser dazzlers**, making it a highly adaptable system.

This flexibility allows it to enhance perimeter security by combining precise communication with advanced surveillance and deterrent capabilities. X-COM is ideal for applications requiring **extended-range communication** and comprehensive monitoring, providing reliable and effective security solutions for critical infrastructure, sensitive areas, and border control operations. Its robust design ensures **optimal performance in demanding conditions**, making it an essential tool for modern security operations.

# KEY STRENGTHS

- **High Acoustic Output:** Delivers 156 dB SPL peak, ensuring clear long-distance communication.
- **Extended Range:** Effective up to 3000 meters, ideal for perimeter security.
- **Optimized Frequency:** 245 Hz to 10 kHz, perfect for human voice clarity.
- **Remote Operability:** Ethernet addressable, enabling seamless remote control.
- **User-Friendly Control:** Managed via desktop Control Software.
- **Compact Design:** Easy to install and integrate into any setup.
- **Advanced Compatibility:** Supports HD/IR cameras, thermal imagers, and laser dazzlers.
- **Robust Solution:** Reliable for critical infrastructure and sensitive areas.

## HIGH POWER ACOUSTIC ELEMENT

Waterproof IP66

## LASER DAZZLER

(0m NOHD) (Less than Lethal Weapon - LLW)

## PLUG & PLAY

## LIGHTWEIGHT

Suitable for fast vessels

## HD DLTV Camera

(IR Camera optional)

## STABILIZED PLATFORM

For naval applications

# FEATURES

## BROADCAST CAPABILITIES

A **broadcast** system combining **live streaming**, **pre-recorded** messages, and **AI-powered real-time translation** for seamless multilingual communication.

## LASER DAZZLER

The laser dazzler, embedded in the X-COM, can be used **both** as a long-distance **laser pointer/illuminator** or as a **deterrence weapon** within a «less than lethal» concept.

## INCLUDED WITH X-COM

- High Power Acoustic Element
- HD Camera
- Ruggedized Pan Tilt System
- Control Software
- Push To Talk Microphone
- Joystick
- Input Power Transformer

## OPTIONAL ACCESSORIES

- Laser Dazzler
- Searchlight
- Thermal Imager
